Subject: 4910 radisson 2001 analytical review letter

Dear Mr. Leege,

In response to your letter dated December 4, 2002, we offer the following comments:

1. Per Russ Rath - no meters were tested. On the 2000 report, 3 was used as it was the number of new meters installed.

In the future, we will not put any numbers under tested unless they change their plan and purchase testing equipment.

2. In the future, the utility will code tower rent to acct 474 - other water revenue.

3. No employees are covered under pension or benefit plans.

4. I believe the PSC was contacted when 2000 report was prepared so date is 3-30-01. The explanation is on page F-22.

5. We believe the numbers are correct. In 2000, the average cost was just under .12 per KWH and in 2001 the average was just under .13 per KWH.

Please contact us if you have any further comments or questions.

Sincerely,

Tostrud & Temp, S.C.

2001 Analytical Review DWCCA-4910-PJL

Dear Ms. Marcucci:

The Public Service Commission (Commission) staff has completed its

FINANCIAL SECTION FOOTNOTES

analytical review of your utility's 2001 annual report. The primary purpose of the analytical review is to detect possible reporting or accounting related errors and also to identify significant fluctuations from prior years' data that are not sufficiently explained in the annual report. The analytical review did identify the following issues:

1. As of today's date our office has not received a response to our letter dated August 17, 2001 concerning our review of the utility's 2000 annual report. We still need your response to item number 2 of that letter.
2. As was stated in item number 3 of the above referenced letter, in the future income for tower rental should be reported in Account 474, Other Water Revenues on page W-4. Please confirm that the utility will follow this procedure in the future.
3. Please explain why there are no dollars reported in Account 686, Employees Pensions and Benefits on page W-5.
4. As directed in the Listing of Edit Check Results, please provide the date the PSC authorized the amortization reported in Account 183.
5. During our review, we noted that the Total KWH used for pumping for the year reported on the Source of Supply, Pumping and Purchased Water Statistics schedule is 18,129. However, \$2,349 is reported in the Operation and Maintenance Expense schedule for power for pumping expense. At an average cost of \$.06 per KWH, 18,129 appears low. Please confirm or otherwise correct the number of KWH.

Responding to the questions posed from the analytical review does not preclude you from possibly receiving other inquiries from our office regarding your annual report in the future: for instance, during a rate case, construction authorization, or other Commission reviews.

We appreciate your cooperation in providing the above information. If you have any questions, please feel free to contact me at (608) 267-9198. Please respond within 30 days of this letter. We prefer that you respond by e-mail if it is convenient for you to do so. My e-mail address is peter.leege@psc.state.wi.us. If we have no questions regarding your response, you can consider the review closed.

Sincerely,
